

2007 Research Award Winners

Student's Name	Project Title	School	Teacher	Amount Funded
Valentin Lazar	The effect of ocean acidification on the shell size of Ammonia beccari	Spring Valley HS	Dale Soblo	\$70.00
Trevor Auman	The effects of amino acid concentration and pH on the growth of Saccharomyce cerevisiae in a lead chloride enriched medium	Spring Valley HS	Dr. Robin Henderson	\$143.57
Payne Montgomery	The effect of an electrolyte supplement on formation of lactate during intense exercise	Spring Valley HS	Dr. Robin Henderson	\$250.00
Troy Szadek	The effect of vermin composting on biodegradable bottles.	Spring Valley HS	Dale Soblo	\$75.55
Yvonne Kao	Comparison of mammalian embryo development under varying laboratory environments	SC Governor's School	Dr. H. Lee Higson III	\$250.00
Aurel Lazar	Evaluation the water condensing properties of various materials in a low cost condenser for plant growth in simulate arid climate conditions	Spring Valley HS	Michelle Sutton	\$200.00
Christopher Pasco	The effect of lead concentration on the growth rate of fagopyrum esculentum with special reference to photoremediation applications	Spring Valley HS	Dale Soblo	\$62.15
Sudeep Sunthakar	Does students' reading speed correlate to students' comprehension ability, reading fluency, decoding skills, reading accuracy, or the Chapman and Cook speed of reading test.	Spring Valley HS	Michelle Sutton	\$250.00
Jason Jakiela	The effect of titanium dioxide concentration on a staining solution applied to cotton fabric.	Spring Valley HS	Dale Soblo	\$250.00
Jacqueline Dallman	The effect of Ginkgo biloba on an individual's memory.	Spring Valley HS	Dale Soblo	\$250.00
Lauren Nixon	The effect of slit speed on recognition time in relation to Retinis Pigmentosa	Spring Valley HS	Dale Soblo	\$250.00

Total \$2,051.27
